HOME PROTECTOR & ABOVE GROUND SERIES

HP0
HP1
AG
AG 2, AG 3
AG 4, AG 5
AG 6, AG 7

Excellent seller for the Small to medium commercial and larger home markets. It is well complemented by high security and fire protection. The 'Home Protector' offers high security with a 6x 25mm point locking mechanism on heavy duty hinged doors. This produce is one of the best sellers throughout Australia, with value added full inner and outer skin reinforced internal walls and heavy duty hinges. The unit's neat and tidy finish is only surpassed by its rugged strength and customer friendly specifications.

HP1	Height	Width	Depth	Weight	Litres
External	600mm	400mm	400	111Kg	55 lts
Internal	500mm	300mm	275		

Fitted with LaGard - handles of quality. Another customer friendly initiative is the removable door which aids handling and transportation for future fitting. The HP1 has a customer friendly adjustable shelving system.

ABOVE GROUND SERIES - This safe is designed for commercial applications requiring high security from fire and theft. Manufactured with a heavy gauge steel door and fitted with a one million variation combination lock or electronic digital and or six level key lock. The product is supported by a drill resistant plate cover over all locking areas. Heavy 25 mm diameter high steel bolts lock in the front and rear edges of the front door and a locking device are fitted for extra security. Inner and outer safe walls are reinforced with a high barrier matrix. Standard sleeved bolt holes are provided in all OZ SAFE models for anchor mounting to floors. A full range of stock sizes are available and custom sizes can be manufactured to suit your design and budget

● Reinforced Barrier Matrix

● AG Series AG1-AG10

● 6 Lever Keylock
